DETAILED ACTION

This action is in response to an amendment and RCE dated 7/15/2004.

Claims 1-68 are canceled by the applicant.

Claims 69-86 are added by the applicant, and are pending.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/15/2004 has been entered.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the present drawings are hand-drawn. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

3. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

The following is an examiner's statement of reasons for allowance: The prior art of Kim, Xu et al., Nadeau-Dostie et al., and Wu teach a semiconductor chip and method for testing a multi-port memory including a controller for writing into a multi-port memory, and an interface circuit which connects a system and test interface via internal pathways. However, the prior arts of record taken alone, or in combination failed to teach, anticipate, suggest, or render obvious the claimed invention or the method steps of the application. Specifically, the prior arts failed to teach, anticipate, suggest, or render obvious the limitation introduced into these claims, namely:

As per Claim 69:

The references failed to teach; three circuit paths for each one of the memory's input ports, and the third path flowing from a register circuit to an input port for the purpose of transporting second test data provided by the controller.

As per Claim 81:

The references failed to teach; for each input port not written to during a write operation, the register stores the data written, and reading out of said register and writing into a port not written to.

Claims 70-80 and 82-86 are dependent claims upon Claims 69 and 81 respectively, and are thus also allowed in view of their dependence.

4. In conclusion, Claims 69-86 are allowed, and are re-numbered as Claims 1-18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John P Trimmings whose telephone number is 703-305-0714. The examiner can normally be reached on Monday through Thursday, 7:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert DeCady can be reached on 703-305-9595. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
